TO WHAT EXTENT CAN I REGISTER EVENTS?

The exhibitor initially decides on the number of events they want. Depending on the size of the stand, we try to make this possible in the locations available to us (see table of space allocation). In consultation with the respective project team, it is also possible to register event requests that exceed this allocation, if necessary. Whether events can be realised is influenced by various factors. Criteria include the topicality of the title and its relevance to current communication topics at Leipzig Book Fair and Manga Comic Con (e.g. country or theme focus) and the availability of suitable venues. In accordance with the Special Conditions of Participation 2.8, responsibility for the implementation of the event lies with the respective organiser or registrant of the event.
