

EXHIBITION AREAS AND HALL LAYOUT 2027

At our **MCC Cosmos** in Hall 1 and half of Hall 3, visitors to Manga Comic Con will find a wide and varied range of offerings centred on the themes of manga, anime and cosplay.

The layout of the themed and exhibition areas within the halls is designed to showcase the individual exhibitors and their offerings to their best advantage.

Based on the current state of planning, the following hall layout is planned:

Stands will be allocated to exhibitors according to the time of registration, the rooms and space available, the exhibitor's needs and the possible options. Depending on the number of registrations, we will plan the hall layout and structure the exhibition areas at our own discretion. We expect to be able to announce the stand numbers in January.
