### 1.5. Registration

(cf. General Conditions of Participation /5.)

**Stand allocation commences on 18 August 2026.** The special price for trade fair rental will be granted until this date. If claims still exist with Leipziger Messe GmbH beyond this date, the entitlement to the special price will be forfeited, even if the registration was received by Leipziger Messe GmbH on time.

The **deadline for registrations is 1 November 2026.** Registrations after the closing date shall only be accepted on request and at the discretion of Leipziger Messe GmbH. Leipziger Messe GmbH shall reserve the right to charge a **late booker surcharge of EUR 325.00 plus VAT** for stands up to 6 m<sup>2</sup> and **EUR 600.00 plus VAT** for stands of 8 m<sup>2</sup> or more (per stand in each case) in the event of registration after 1 November 2026. Allocation requests can no longer be considered. If the event is fully booked before the registration deadline, the registration shops will be closed. If a registration is submitted at a time when the event is fully booked but the registration shop is not yet closed, a non-public waiting list will be created for these registrants, allowing them to move up the list, for example, if an already approved exhibitor cancels. However, there is no entitlement to this.

Leipziger Messe GmbH reserves the right to close registration early and create a waiting list. Exhibitors may still be admitted after receipt of inquiries and the size of the stand area. If the event is fully booked before the registration deadline,

the registration shops will be closed. If a registration is submitted at a time when the event is fully booked but the registration shop is not yet closed, a non-public waiting list will be created for these registrants, allowing them to move up the list, for example, if an already approved exhibitor cancels. However, there is no entitlement to this.

Provisional registrations or registrations written informally, including those associated with reservation requests, will not be considered and will not be processed unless the formal registration has been submitted by the registration deadline.

The date of the email (confirmation of exhibitor registration) sent to the fair organiser immediately after the successful completion of the exhibitor registration shall apply.

**Changes to the stand** (increase in area or changes to the stand construction) shall be possible free of charge **until 11 February 2027**, provided that this is feasible for the organizer. There is no entitlement to this. After this date, a processing fee of **EUR 100.00** plus VAT will be charged by Leipziger Messe GmbH and any costs incurred (e.g. graphics costs) will be charged by FAIRNET GmbH. The regulation on changing the basic equipment of a complete stand in accordance with Clause 1.7 (FAIRNET complete stands) remains unaffected. A reduction in the stand area shall also be possible until 11 February 2027, subjected to the conditions and fees stated in Point 1.10. (Withdrawal and Non-participation).

Exhibitors who are not in agreement with a new version of the Special or General Conditions of Participation may withdraw from the contract free of charge within 14 days of notification thereof. The declaration of withdrawal must be in text form (e.g. email).

Leipziger Messe GmbH is to be informed immediately in writing of any changes to company, correspondence and invoice data after registration. The processing fee for invoice and address changes is **EUR 51.00** plus VAT per change.

### 1.6. Admission – Trade Fair Rental Contract (cf. General Conditions of Participation /6.)

Admissions will be sent to exhibitors as soon as possible after the exhibitor application has been processed.

German and international companies shall be eligible to participate, provided their exhibits correspond to the company profile as well as to the provisions mentioned under Points 1.3. and 1.11. This shall also include manufacturers of books, newspapers, magazines, teaching aids, audio, image and data carriers, providers of online platforms and digital offerings as well as institutions or associations from the fields of Japanese culture and education. When registering, proof of eligibility must be provided (e.g., in the form of a website, social media presence, and/or a link to a sales page that clearly displays the exhibitor's product portfolio). Exemptions may be granted upon application.

Furthermore, all political parties and their parliamentary fractions are excluded from participation, regardless of their respective political orientation.

Proxy vendors, meaning exhibitors who offer or sell works or merchandise on behalf of or at the request of artists who are not present, are not permitted at the fair. Exceptions to this rule include fundraising campaigns, fan projects, or artistic collaborations. In these cases, all participating artists must be registered in advance as co-exhibitors.

Registration of more than one stand per exhibitor is subject to approval. There is a waiting list for such stands. A decision on the approval of additional stands will be given in October 2026. Exhibitors in the Artist Area are not permitted to book more than one stand in this area. Participation with a stand in the exhibition areas New Artist Alley and Artist Area simultaneously is not permitted. The exhibitor may only book a stand in one of the two exhibition areas.

The organiser reserves the right to consider only those applications that have been submitted fully and in time in the selection process.

Participation with a stand in the exhibition areas New Artist Alley and simultaneously in the Artist Area is not permitted. The exhibitor may only book a stand in one of the two exhibition areas.

The organiser shall decide on the admission of the exhibitor, exercising his reasonable discretion and taking into account the available space capacities, the purpose of the event and safety-relevant aspects. The organiser may, for objectively justified reasons, not grant admission or make such admission dependent upon further preconditions such as the imposition of stipulations or the payment of a security deposit. This applies in particular to exhibitors who have not fulfilled their financial obligations to the organiser in the past or have not done so in good time or who have already violated the conditions of participation, safety-related exhibition regulations, orders under domestic law or statutory provisions at previous trade fairs. The organiser shall not be obliged to give reasons for non-admission to the event.

Leipziger Messe GmbH shall reserve the right to limit the area of exhibition sections that are not part of the core area of the event (e.g. New Artist Alley). Exhibition areas with limited space are marked in the registration documents. Stand space will then be allocated according to the order in which registrations are received. Subsequent registrations will not be considered if the space provided is insufficient.

### 1.7. Stand Allocation – Stand Construction (cf. General Conditions of Participation /7.)

#### Provision of the exhibition space:

The allocation of exhibition space by the organiser may only take place after expiry of the registration deadline and examination of all exhibitor applications received. The allocation of exhibition area depends on the time of registration, the available premises, spaces, requirements and options of the organiser and on the layout of the exhibition areas to be carried out by the organiser at his own discretion. The exhibitor shall have no claim to the same placement as at the previous event or to the allocation of a specific space; or to a specific stand shape however, the exhibitor's placement wishes with regard to location, proximity, size, stand shape and exhibition area will be taken into consideration as far as possible. The costs of modifying existing stand structures for self-built stands due to the assignment of a specific exhibition space shall be borne by the exhibitor.

The exhibitor must accept that upon commencement of the event the location of the other stands may have changed since the stand was allocated.

The **minimum size** of one stand is **4 m<sup>2</sup>**. A minimum stand depth of 2 metres also applies. Participants in the New Artist Alley are excluded.

Only rectangular or square exhibition spaces in a 1-metre grid (width/depth) are available to rent. Exceptions can be made on request.

#### Complete stands:

Leipziger Messe GmbH offers complete stands (rental incl. stand construction) in its own name and for its own account. The stand construction services included in the complete stand are provided by the subsidiary FAIRNET GmbH. In addition to the General and Special Terms of Participation and Information for Exhibitors of Leipziger Messe GmbH, the General Terms of Contract of FAIRNET GmbH also apply to all stand construction services. These are available at: <https://www.fairnet.de/files/fairnet/media/pdf/avb-en.pdf>

The electrical connection (2 kW) including power consumption is obligatory when booking a complete stand variant per stand and cannot be deselected. Further details on prices, stand equipment and service description can be found in the price list and the respective stand construction offer (see website [www.manga-comic-con.de/prices](http://www.manga-comic-con.de/prices)).

Exhibitors who have booked a complete stand with Leipziger Messe GmbH will receive an order confirmation from FAIRNET GmbH with the layout of their stand

## 1. Special Conditions of Participation for exhibitors at Manga Comic Con 2027

after stand allocation and will then have the opportunity to make changes to the basic equipment of the complete stand. The first change up to the deadline of February 11, 2027 is **free of charge**, for each further change thereafter a lump sum of **EUR 100.00** plus VAT will be charged. Invoices for individual changes shall be issued by FAIRNET GmbH. It is also possible to order additional stand construction services at the prices stated in the "Shop for Exhibitors - Services" (customer account).

### Additional regulations for complete stands:

The specifications regarding the color of the floor covering and the fascia lettering, which the exhibitor books with his online exhibitor registration, are binding and cannot be changed later.

Floor coverings are laid on double-sided adhesive tape and with covering foil. The stand package includes basic cleaning of the floor covering. This includes the removal of the foil and carpet cleaning and takes place before the start of the event in the late evening of the last set-up day or before the start of the event. Displays, posters or pictures may only be attached to the rented wall elements by hanging them using picture hooks. Nailing, drilling, screwing or gluing is not permitted. Professional digital prints for the walls, including mounting, and/or freely designable front panels can be ordered in the Shop for Exhibitor Services. In the event of any damage, FAIRNET GmbH will invoice the exhibitor for the cost of restoring or replacing the stand partition walls. The walls only have a purely separating function and are not suitable for bearing loads. Support and frame elements may only be changed/removed by employees of FAIRNET GmbH. The customer shall be obliged to return the subject matter of the contract to FAIRNET GmbH immediately after the end of the event. Objects left at the stand shall be disposed of without compensation.

Removal of the partition wall between two exhibition stands is only possible with the "Complete stand Book duo" variant. For all other stand variants, the removal of a full or half partition wall is not permitted. It is not permitted for exhibitors who have rented several small areas to use these as a joint area and present them to the outside world as one stand. In this case, the organizer is entitled to demand the rent due for the rental of a larger area from the participating exhibitors.

The "Complete stand Book duo" (4 m<sup>2</sup>) may only be booked with another "small stand duo". A maximum of two "Complete stands Book duo" (4 m<sup>2</sup>) can be placed next to each other. The entire partition wall is removed between the two stands; half partitions are not permitted. Two independent companies must rent both stands; upon request, proof of no affiliation in the form of appropriate documentation must be submitted to Leipziger Messe GmbH. Both companies must submit their application separately and book the stand version "Complete stand Book duo". The respective partner for the adjacent stand must be named in the exhibitor application. Both stands must be provided with separate fascia lettering. Should an exhibitor rent a "Complete stand Book duo" without an existing registration for the adjacent stand, Leipziger Messe GmbH will allocate a "complete stand Book" of 4 m<sup>2</sup> and with two side walls.

### Self-built stand:

The stand should be equipped with sufficient lighting, carpet and stand partition walls to adjacent stands. Row, corner and head stands must be separated from adjacent stands by their own stand construction walls (side and/or rear wall). Free-hanging cables or similar things must be concealed in the interests of the hall appearance.

### Stand design:

The allocated stand area and the stand boundaries must be strictly adhered to. Areas that are used but not rented as stand space from Leipziger Messe GmbH will be charged at the corresponding list price.

Corner, head and block stands are only available in limited numbers. In the case of **corner, head and block stands**, it is not permitted, in the interest of the opposite stands, to form a closed wall facing the aisle. The organiser may allow exceptions. However, at least 50 percent of the wall facing an aisle must remain freely accessible. Exhibitors wishing to close up to 50 percent of a wall facing the aisle must notify

the organiser in writing within 10 working days of the date of dispatch of the stand allocation. A fee of **EUR 115.00** plus VAT will be charged per meter of wall that has been closed. If the organiser receives the information from an exhibitor with a complete stand after the deadline, the exhibitor will be invoiced by FAIRNET GmbH for the cost of the additional walls. Random checks will be carried out at the fair.

Following consultation and approval by Leipziger Messe GmbH, two opposite stands may be connected with an aisle cover (e.g. floor covering). The Leipziger Messe GmbH charges a fee for this. This is calculated for Leipzig Book Fair / Manga Comi Con 2027 from a fee of **EUR 131.00** plus VAT multiplied by the length of the stand adjacent to the aisle cover.

A two-storey stand construction must be notified at your earliest convenience, but at the latest when applying for the stand construction. The area on the upper floor is calculated with 50 percent of the applicable stand rental price per m<sup>2</sup>. The calculation of the rent for areas on the upper floor is based on the actual approved area resulting from the stand construction documents to be submitted.

When designing the stand, the legal requirements regarding the protection of children and minors must be observed.

Advertising materials, posters, banners, digital displays, large-format cover images, and other publicly visible presentations must not display or highlight sensitive content (see Point 1.11, Products).

### 1.8. Terms of Payment

(cf. General Conditions of Participation / 8.)

Invoice complaints can only be considered within 30 days of the invoice date. In the event of a change of company data, a processing fee may be charged for changes of invoice and address (see Point 1.5. Registration).

### 1.9. Co-exhibitors and Additionally Represented Companies

(cf. General Conditions of Participation / 9.)

Co-exhibitors and additionally represented companies and associations must be registered by the main exhibitor at the exhibitor's stand by **15 December 2026** against payment of a fee according to the applicable price list (see website [www.manga-comic-con.de/prices](http://www.manga-comic-con.de/prices)). Applications by co-exhibitors and additionally represented companies after the registration deadline shall only be possible on request and at the discretion of Leipziger Messe GmbH.

Leipziger Messe GmbH shall reserve the right to charge a **late-booker surcharge** of **EUR 68.00** plus VAT, for each company that has registered after 15 December 2026. All communication regarding participation in the trade fair and the calculation of the total trade fair rent and fees for co-exhibitors and additionally represented companies will always be made to the main exhibitor.

For each co-exhibitor and additionally represented company, the main exhibitor must submit a separate application including company profile details (via the online exhibitor application) by the registration deadline.

Co-exhibitors are companies that present their own goods or services with their own staff at the main exhibitor's booth. Group companies, subsidiaries and sister companies or imprints that have their own name are considered co-exhibitors.

Co-exhibiting companies will be named in the exhibitor directory in the digital trade fair media. The communication flat rate (see Point 1.17. Media Entries) is obligatory and included in the co-exhibitor fee. The main exhibitor receives one exhibitor pass free of charge for each co-exhibitor registered.

An additionally represented company presents goods or services without its own staff at the exhibition stand of a main exhibitor. Additionally represented companies are not included in the exhibitor directory in the digital trade fair media.

## 1. Special Conditions of Participation for exhibitors at Manga Comic Con 2027

### 1.10. Withdrawal and Non-participation

(cf. General Conditions of Participation / 10.)

Cancellation of registration by the exhibitor must be notified in writing to Leipziger Messe GmbH.

In the case of **withdrawal prior to admission**, the cancellation fee per stand registration shall be **EUR 220.00** for exhibitors who have registered an exhibition space of up to 6 m<sup>2</sup> and **EUR 460.00** for exhibitors who have registered an exhibition space of 8 m<sup>2</sup> or more.

In the case of **withdrawal after admission** has been granted, Point 10.2 of the General Conditions of Participation of Leipziger Messe GmbH shall apply.

In the event of a reduction of the exhibition space **after admission**, the exhibitor must pay **100 percent of the stand rent** for the exhibition space that has been returned. **A reduction in the exhibition space shall be possible until 11 February 2027.**

A cancellation fee of **EUR 69.00** per co-exhibitor plus VAT will be charged for cancelling a co-exhibitor registration by **15 December 2026**. From **16 December 2026**, the cancellation fee per co-exhibitor is **EUR 275.00** plus VAT.

The special regulation on the right of exhibitors to withdraw free of charge in accordance with Point 1.5. (registration) shall remain unaffected.

### 1.11. Products

(see Conditions of Participation / 11.)

The exhibitor shall indemnify the organiser against any justified claims by third parties in the event of a breach of the following rules. The following rules must be observed for sales:

The exhibitor is responsible for compliance with tax and accounting obligations. Sales must be recorded and receipted in accordance with the applicable legal provisions and handed over to the buyer as a receipt.

The fire protection regulations of the Technical Guidelines must be observed when designing the stand and storing materials (cf. Section 4.4.1.11 Technical Guidelines).

In the Artist Area and New Artist Alley exhibition areas, exhibitors are only permitted to sell products from their own production or their own range and those of registered co-exhibitors or additionally represented companies.

The exhibitor shall be responsible for ensuring that the products and items they offer comply with the following rules and applicable German law. Leipziger Messe GmbH shall reserve the right to verify compliance with these. This verification may also be carried out by persons commissioned by Leipziger Messe GmbH for this purpose. Requests by these persons are to be complied with. These checks shall not constitute stand approvals. At the request of the organiser, the exhibitor shall provide plausible evidence of legality (e.g. in the case of works which are demonstrably protected by copyright, they are to show that they hold a licence or that the products in question have entered the European Economic Area with the creator's knowledge). If the Exhibitor is unable to demonstrate this immediately, the organiser shall be entitled to demand the removal of the product in question from the stand and, in the event of non-compliance, to exclude the exhibitor from further participation in the Fair.

The organiser shall decide on the admission of products/services not directly related to the book and media industry upon application at its reasonable discretion.

#### Copyright

Exhibitors may only exhibit items or products that comply with the applicable legal provisions and are free from any third party right. Exhibitors shall ensure,

in the case of copyrighted works, either to be their sole creator, to offer original products of the creator, to own corresponding rights of use or to be entitled for other reasons. The same shall apply to other industrial property rights (e.g. trademark rights, patent rights, design rights) or personal rights. The sale of counterfeits, plagiarisms and unlicensed goods shall be prohibited. Only items or products that have a clear copyright notice may be offered. Where there is no corresponding notice, the exhibitor shall be obliged to provide written proof of the rights of use.

#### Protection of children and minors

Exhibitors must be aware that many visitors are minors and are therefore required to comply with regulations regarding the protection of children and minors. They are responsible for ensuring that the presentation, promotion, and distribution of their offerings on the fair grounds are in accordance with these protection regulations.

Publications and media that have been officially indexed as harmful to minors must not be made accessible to children or young persons. Regardless of their legal admissibility, exhibitors must implement appropriate protective measures for media and advertising materials which content is likely to impair the development of children or minors due to its nature, intensity, scope, or form of presentation. Content requiring protective measures under this provision includes, in particular:

- Depictions or descriptions containing pornographic content, sexualized violence, sexual coercion, rape, or situations of abuse or coercion;
  - Depictions of significant acts of violence, torture, sadism, or comparable acts;
  - Depictions of self-harm, self-endangering behavior, or comparable acts;
- This list is not exhaustive. The circumstances of each individual case are always decisive.

The classification of a work within a specific genre does not, in and of itself, constitute grounds for exclusion or restriction. The sole determining factors are the specific content and its presentation to children and minors. Exhibitors must take appropriate measures to ensure that sensitive content is not readily accessible to children and minors.

Leipziger Messe GmbH is authorized to issue instructions regarding the presentation, placement, labeling, or promotion of media in order to protect children and minors. In particular Leipziger Messe GmbH may require the removal, covering, or modification of advertising materials and presentations.

#### Applicable German law

Exhibiting items and products which are prohibited by law in Germany is also to be refrained from at the Leipzig Trade Fair. Exhibitors shall pay particular attention to the regulations on prohibited badges according to Sections 86 and 86a of the German Criminal Code (StGB).

#### Weaponry

Exhibiting or offering weaponry, decorative weapons or imitation weapons shall be prohibited. This shall not apply to articles that are permitted under the cosplay rules (see [www.Manga Comic Con.de/en/visit/rules-for-cosplay/](http://www.Manga Comic Con.de/en/visit/rules-for-cosplay/)) and whose display or offering does not breach legal regulations. Weaponry, decorative weapons or imitation weapons largely made of metal may in general not be exhibited or sold.

#### Clothing and Accessories

Exhibitors offering clothing or cosplay accessories agree to comply with the event's current cosplay rules. The most up-to-date guidelines can be viewed at the following link: <https://www.manga-comic-con.de/en/visit/rules-for-cosplay/>.

#### CE Marking

The exhibitor must ensure that its products comply with applicable EU regulations and that the product meets all relevant requirements.

If a CE marking is required for a product, the exhibitor may only sell the product if it bears a CE marking.

If such regulations are not complied with, the organizer is entitled to prohibit the sale of the products.

## 1. Special Conditions of Participation for exhibitors at Manga Comic Con 2027

### Lucky bags

When selling lucky bags, Blind bags, goodie bags or similar concepts, it must be ensured that the buyer is able to see on the outside the products contained inside (e.g. by naming the product groups and their number). The value of the products contained in the lucky bags must amount to at least 90 percent of the sales price. Only products for which the exhibitor demonstrably holds licensing, copyright and/or patent rights may be contained in lucky bags or similar. Exhibitors in the Artist Area and New Artist Alley may also offer self-made products and works of art in lucky bags or similar.

In lucky bags or similar surprise packages, the distribution of the product lines or product groups contained in each bag must be the same across all bags offered. In addition, at least one sample selection must be displayed in a visible location for visitors to view.

The organizer reserves the right to reject exhibitors in advance, as well as to issue warnings or exclude them from further participation during the fair, if the product range offered consists exclusively or predominantly of lucky bags or similar surprise packages. A predominant share is deemed to exist, in particular, if more than 50% of the product range offered consists of such products.

Leipziger Messe GmbH or its authorised personnel will carry out random checks.

### Gambling

Offering, conducting, or promoting games of chance for a fee is prohibited at the event. This includes, in particular, raffles, lottery-style promotions, wheels of fortune, and similar paid sweepstakes or games of chance in which the outcome depends predominantly on chance. In particular, paid games of chance that qualify as gambling under the State Treaty on Gambling (GlüStV 2021) or that establish an unreasonable link between payment and the chance of winning are prohibited.

As an exception, free sweepstakes and paid random selection systems are permitted, provided that the amount paid corresponds to the customary market value of the purchased goods or services and the random selection mechanism serves merely as a supplementary selection or variation component within a uniform product category (e.g., "blind box" or similar systems). Within these permissible systems, products of comparable economic value must be provided. Deliberately structuring the system to include inferior or worthless items ("losers") is prohibited if this unreasonably distorts the overall structure of the odds of winning.

The design of all promotions must comply with the requirements of fair trade laws (in particular the UWG). In particular, no mechanisms may be used that unduly encourage minors to make a purchase or to participate repeatedly.

The organizer reserves the right to prohibit or terminate individual promotions at any time if there are justified concerns regarding their legality or the conduct of the event.

The exhibitor is responsible for the legal admissibility of its offers and indemnifies the organizer against all claims by third parties resulting from violations of these regulations.

### Fan art

Provided that the exhibitor does not breach an applicable German law, Leipziger Messe GmbH shall tolerate the sale of fan art in the Artist Area, New Artist Alley and Fashion District. However, no more than 50 percent of the entire product range and 50 percent of the stand area should consist of fan art. If more than one artist is represented at a stand, then the fan art rules apply to each exhibiting artist.

The sale of fan art outside the New Artist Alley, Artist Area and Fashion District exhibition areas is not permitted. Stands in the Merch City, Cosplay Corner, and Asian Village exhibition areas (so-called vendor stands) may not offer or sell products featuring fan art. The sale of fan art is explicitly prohibited for these stands. They are therefore excluded from the aforementioned rule.

Furthermore, the exhibitor shall ensure that the event regulations on copyright and applicable regulations of the licence holders as well as German law are complied with.

### AI-generated products

Products and items which were created exclusively or partially with the help of generative artificial intelligence may not be exhibited and sold.

### 3D Printing

The sale or offering of products manufactured using 3D printing is permitted only if the necessary rights of use and exploitation, in particular for commercial use, have been obtained for the print templates used.

The exhibitor warrants that the products offered do not infringe on any third-party rights and must provide appropriate evidence upon request. This also applies to models declared as the exhibitor's own designs.

The event organizers reserve the right to exclude products or offers from the event if there is reasonable suspicion of legal violations.

### Food

The display and sale of food is only permitted if it is packaged goods or products that are not intended for direct consumption. Drinks may only be sold in the form of sealed cans, bottles or other containers. Serving is not permitted. The products on offer must have a connection to the Asian region, e.g. especially Japanese snacks. The sale of dried fruit is generally prohibited. The sale of food by weight using a scale is prohibited. Likewise, packaging or filling food on-site at the fair is not permitted. Free food samples are not affected by this rule and remain permitted.

Food may only be sold in accordance with the standards set forth in the Food Information to Consumers (FIC) Regulation and the Food Information Implementation Ordinance (LMIDV). The applicable hygiene and food regulations must be observed and complied with.

### Drones

Drones or similar flying objects may not be displayed or offered for sale.

### Body modification

### 1.24. Use of Digital Systems

(cf. General Conditions of Participation/24.)

### 1.25. Assignment of Rights

### 1.26. Special offers

Applicants for the New Artist Alley and/or Artist Area may not register as exhibitors at the Leipzig Book Fair or any other exhibition area of Manga Comic Con after submitting their application.

#### 1.26.1 Deviating or additional conditions and notes for participation in the New Artist Alley:

Only individual artists, artist duos, trios or groups may participate in the New Artist Alley, provided that they have already registered as such in the application and have provided all participant names. Multiple registrations shall not be permitted and may lead to exclusion from the application process. Separate applications made simultaneously by a registered duo, trio or group shall also count as a multiple application. Participants must be at least 18 years old.

The product range on offer must relate to anime, manga, comics or Asian countries. Furthermore, the product offering shall be independently drawn, designed, sewn, crafted or manufactured by its creator.

The number of participants in the New Artist Alley shall be limited to **80 places**. There will be a waiting list of 20 places. Participant and waiting list places will be allocated by a lottery. The invitation to tender and the application form can be found at [www.manga-comic-con.de/newartistalley-en](http://www.manga-comic-con.de/newartistalley-en). Please refer to the call for proposals for the exact dates and deadlines.

All applicants will be screened for compliance with the fan art and AI regulations (see Point 1.11) prior to the drawing. If it becomes apparent from the applicant's online presence (at the time of application) that these regulations are not being followed, this may result in disqualification.

Participants will be notified via email of their participation or their place on the waiting list following the draw. No notification will be sent regarding non-partic-

ipation. The list of participants of the New Artist Alley will also be published on the official Manga Comic Con website. If a participant, who has been drawn, has not submitted their registration to Leipziger Messe GmbH by the date specified in the invitation to tender, the right to participate in the New Artist Alley shall be forfeited. In this case, a participant shall slip down the waiting list.

Participation in the New Artist Alley is possible only every two years. Participants who have been drawn and registered may only reapply after two years. This shall also apply if the participants were registered as an artist group.

The participant shall ensure the supervision of the stand for the entire duration of the Fair. They shall receive a free exhibitor pass according to the space key. There shall be no entitlement to a specific placement within the New Artist Alley. Participants pay the obligatory basic marketing package of **EUR 49.00** plus VAT and receive the corresponding services of this flat rate (see Clause 1.17). The sustainability fee for New Artist Alley participants is also obligatory.

Participants of the New Artist Alley are allowed to register events within the Leipzig Book Fair and Manga Comic Con event programme. They shall therefore be exempt from the official space scales of the conditions of participation Leipzig Book Fair and Manga Comic Con event programme.

The releasing, subleasing as well as the sharing of a table that exceeds the registered number of participants shall be prohibited in the New Artist Alley. Non-compliance may also result with a contractual penalty (see point 1.23) and, if applicable in exclusion from the current event and future ones.

Co-exhibitors may not be registered.

Cancellation of registration by the exhibitor is to be made in writing to Leipziger Messe GmbH. The regulations of Clause 1.10 (Cancellation and Non-participation) shall apply. The special regulation on the right of exhibitors to withdraw free of charge in accordance with Clause 1.5 (Registration) shall remain unaffected.

#### 1.26.2 Deviating or additional conditions and notes for the Artist Area exhibition area

The number of participants in the Artist Area is limited. The final number depends on the available space and is at the sole discretion of Leipziger Messe GmbH. There is no entitlement to a stand space. There will be a waiting list of 20 places.

Participant and waiting list places will be allocated partly by drawing lots and partly by curation. The application form as well as dates and deadlines can be found at [www.manga-comic-con.de/artistarea](http://www.manga-comic-con.de/artistarea).

All applicants will be screened for compliance with the fan art and AI regulations (see Point 1.11) prior to the drawing. If it becomes apparent from the applicant's online presence (at the time of application) that these regulations are not being followed, this may result in disqualification.

Individual artists, artist duos, trios or circles may participate in the Artist Area, provided that they have already registered as such when applying and have given all the names of the participants. Sharing the stand with other artists is permitted, but this must be already specified in the application. All artists represented on the stand must be registered as co-exhibitors in the application and subsequent exhibitor registration. Details on co-exhibitors can be found in section 1.9 (Co-exhibitors and additionally represented companies). Multiple applications are not permitted and may lead to exclusion from the application process. The parallel individual application of a registered duo, trio or circle also counts as a multiple application.

Participants will be informed via email of their participation or their place on the waiting list after the draw / curation. No notification will be sent regarding non-participation. The list of participants of the Artist Area will also be published on the official Manga Comic Con website. If a participant drawn by lot has not submitted his registration to Leipziger Messe GmbH by November 01, 2026 (registration deadline), the right to participate in the Artist Area is forfeited. In this case, a participant will move up from the waiting list.

### 1.27. Data Protection

(cf. General Conditions of Participation/26.)

### 1.28. Participation at Leipzig Book Fair event programme

Participation is reserved for exhibitors at Manga Comic Con. Manga Comic Con reserves the right – also in consultation with the venues of Leipzig liest – to make a selection from all the applications received for the programme of events at the fair grounds and in the city of Leipzig. Criteria taken as a basis are, for example, the topicality of the title, the number of events registered (e.g. in relation to the size of the stand) and the relevance to current communication themes of Manga Comic Con (e.g. Guest of Honour). Requests for events from co-exhibitors will only be considered if there is free capacity. The Conditions of Participation Leipzig Book Fair event programme, which are part 2 of the Conditions of Participation at Manga Comic Con 2027, continue to apply.

### 1.29. Final Provisions

(cf. General Conditions of Participation/27.)

Leipziger Messe GmbH exercises domiciliary rights to the exhibition grounds and its virtual offerings. The Leipziger Messe GmbH Internal Regulations for the exhibition grounds are available at [www.leipziger-messe.de/en/meta](http://www.leipziger-messe.de/en/meta).

Each exhibitor shall share responsibility for the success of the fair. Any acts which impair or endanger the running or success of the fair or unduly disturb other exhibitors and visitors are to be refrained from.

Each exhibitor shall be obliged to cooperate in ensuring theft prevention to the greatest extent through appropriate stand design, sufficient and specially instructed stand personnel and, if necessary, additionally commissioned stand security; and shall also ensure that any theft is punished under criminal law.

Insofar as protected by the right to freedom of expression, disruptions and impairments of the trade fair are unavoidable in individual cases. Leipziger Messe GmbH shall not be held responsible for any damage caused to exhibitors as a result.

The events on the exhibition grounds are summarised under the title Programme fair.

Leipziger Messe GmbH selects venues for the programme and coordinates and publishes the calendar of events online. The participating publishers receive one or more event slots from the pool of venues provided by Leipziger Messe GmbH and can, as organisers, design the content of these.

Responsibility for the entire execution of each event lies with the respective organizer of the event.

Participation is not guaranteed.

The selection and allocation of the registrations received will be made according to the available room capacities and with reasonable discretion. The date of registration does not matter, as long as it falls within the specified registration period. Other criteria are the number of registered events in relation to the stand size (see table below), the topicality of the title (publishing date between the Leipzig Book Fairs 2026 and 2027) and the relevance to current communication themes of Leipzig Book Fair and Manga Comic Con.

Requests for events by a co-exhibitor must be coordinated in advance with the main exhibitor and will count towards the total number of events according to the size of the stand.

Events in the city usually take place starting from 6.00 p.m.

All events, including those held at your own stand, must be planned and conducted in such a way that escape and rescue routes are not obstructed by crowds of visitors and the smooth running of the fair is not disrupted (see also the Special Terms and Conditions of Participation for Leipzig Book Fair 2027, Point 1.19 Presentations, Communications Technology and Visitor Numbers).

### 2.4. Non-Public Events
